

# ROADHAWK E10

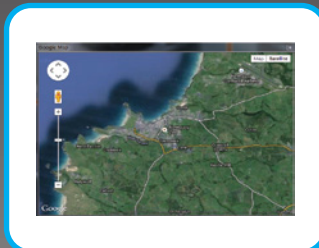

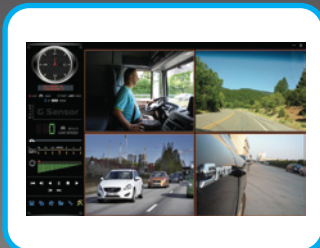

Multi-Camera solid state vehicle CCTV  
With GPS and High Capacity SDXC files.

PROVIDES HIGH QUALITY VIDEO EVIDENCE  
AND SUPPORTING DATA IN THE EVENT OF A ROAD  
TRAFFIC INCIDENT FROM UP TO 4 CAMERAS

- **4 Channel DVR:** Plug from 1 to 4 cameras in to the E10 for a full CCTV System. One of the smallest and most powerful systems available.
- **Fully Configurable:** Allows for internal, front facing, rear facing, side-swipe or internal cargo bay monitoring and recording.
- **Live Display:** Optional plug in LCD screen allows cameras to be linked to vehicle's indicators and reversing lights and other vehicle functions to show a live output from any of the connected cameras.
- **GPS:** Full GPS with external antenna supplied provides the global position, speed and direction of travel when reviewing the video files.
- **Encrypted and Password Protected:** The RoadHawk E10 files are encrypted and can be password protected to prevent unauthorised tampering.
- **Engine off Record delay:** Programmable record delay, continues to record for a set amount of time once the vehicle has been switched off.
- **Vehicle Registration data:** Enter the vehicle registration number and this will be displayed in the video file along with time/date stamps.
- **Solid State SDXC:** Using solid state high capacity SD cards, the E10 can store up to 30 hours of high quality video from 4 cameras. 100+ hours in lower quality modes. Unit does not require a hard disk drive.
- **Constant Loop Recording:** Fit and forget. Turns on and starts recording within 20 seconds of the vehicle being started.
- **2 Year Warranty:** No quibble 2 year warranty with UK based customer support.

## features

- 720 x 576 D1 resolution x 4
- Loop overwrite function
- 1hz GPS
- 4 x Alarm inputs
- H.264 Video encoding
- Embedded Linux system
- Audio safety warnings
